If you're planning to send cash only to family and friends, then choose personal. But if you are planning to receive money for services and goods, then opt for business. However, if you plan to use it on both purposes, Square highly recommends its users to make two separate accounts and logging out between payments. Once the registration is completed and you have linked your account, you can already receive and send money. Is It Safe to Use Cash App hack ? According to the website of Square, the Cash App utilizes the same safety standards and fraud detection infrastructure it utilizes for its business clients completing POS transactions when a user uses the cash app. If you send money, all the details will be encrypted before it is sent to the server of Square. But, there is always a possibility that fraud may take place. vbmjh fgyhimygukthy
