We also assumed the cardholder would use the physical Apple Card for the other 30% of their purchases at a rate of 1% cash back. You may earn a higher or lower return depending on your spending habits. How the cash-back program works Apple refers to cash back as "Daily Cash," and cardholders can earn it at a rate of 3% cash back on goods or services purchased directly from Apple (including Apple retail stores, the Apple online store, the App Store, iTunes, Apple Music and other Apple-owned properties) on Uber and UberEats, at Walgreens and Duane Reade stores, on the Walgreens app and on walgreens.com, in T-Mobile stores, at Nike and at Exxon and Mobil stations; 2% cash back on Apple Pay purchases and 1% cash back on all other purchases. There is typically no welcome bonus for this card, however new cardholders who open an account during June can earn \$50 in Daily Cash after they spend at least \$50 at Walgreens in the first 30 days of opening an account. This offer is valid now through June 30, 2020. The cash-back program is competitive, but it isn't the highest earning on Apple purchases. The U.S. Bank Cash+â,,ç Visa SignatureÂ® Card offers 5% cash back in two categories of your choosing, on up to \$2,000 in combined purchases a quarter. According to a U.S. Bank spokesperson, the card's "electronics stores" category includes Apple Store in-store and online purchases while the "TV, internet and streaming services" category includes most purchases made through the App Store, Apple Music and iTunes. Daily Cash automatically deposited into your Apple Cash card (located in the Wallet app) at the end of every night, once the transaction is posted to your account. Any transaction that is still pending won't post at the end of the next day. Daily Cash can be used in a number of ways: applied as a statement credit to

your Apple Card balance, spent like cash through Apple Pay, transferred to a bank account or sent to friends via iMessage. Unlike some rewards cards, the value of Daily Cash is the same, no matter how you redeem it. If you don't have an active Apple Cash card, your cash back accrues in your Apple Card account, and you can manually redeem it through the Wallet app. Tags:
